

**T T A A T A G A T G**

The image shows a DNA sequence consisting of the letters T, T, A, A, T, A, G, A, T, G. Each letter is rendered in a bold, sans-serif font. The letters are color-coded: 'T' is red, 'A' is green, and 'G' is yellow. Below the sequence is a horizontal line composed of many small, overlapping segments in various colors, including orange, green, blue, and red, creating a multi-colored underline effect.
