

CCCACTAAC

The image displays a DNA double helix structure. The top strand is composed of blue 'C' (Cytosine) and green 'A' (Adenine) bases, with a red 'T' (Thymine) base. The bottom strand is composed of green 'A' (Adenine) and orange 'G' (Guanine) bases, with a red 'T' (Thymine) base. The bases are connected by horizontal lines representing hydrogen bonds. The sequence of the top strand is C C C A C T A A C, and the sequence of the bottom strand is G G G T T A A C.
