

CACCTCAG

Diagram illustrating a DNA sequence: CACCTCAG. The sequence is displayed with the top strand in blue and the bottom strand in green. The bases are paired: C (blue) with G (green), A (blue) with T (green), C (blue) with G (green), T (blue) with A (green), C (blue) with G (green), and A (blue) with T (green). The sequence is flanked by a red line on the left and a red line on the right.
