

TGAGGAA

A sequence of seven nucleotides (T, G, A, G, G, A, A) displayed in a stylized, colorful font. The letters are arranged in two rows: the top row contains T, G, A, and G; the bottom row contains A, G, A, and A. The letters are colored as follows: T is red, G is orange, A is green, G is orange, G is orange, A is green, and A is green.
