

TcGTCgC

The image displays a DNA sequence logo for the sequence TcGTCgC. The letters are color-coded: T (red), c (blue), G (yellow), T (red), C (blue), g (yellow), and C (blue). Below the letters are horizontal bars representing the relative frequency of each base at each position. The bars are color-coded to match the bases: red for T, blue for C, and yellow for G. The sequence is flanked by two red bars on the left and right, and a green bar is present below the first T and the last C.
