

C T c c c A A G T A

The image displays a DNA sequence logo for the sequence C T c c c A A G T A. The letters are color-coded: C (blue), T (red), c (blue), c (blue), c (blue), A (green), A (green), G (yellow), T (red), and A (green). Below each letter is a horizontal bar with segments of different colors (red, blue, green, yellow, orange) representing the relative frequency of each base at that position.
